## NEXT TIME, Ask Your Doctor for an ELECTRONIC PRESCRIPTION

### Tips For Switching to Electronic Prescriptions

- ✓ Ask your doctor to send your prescription electronically to our pharmacy.
- ✓ When you arrive at our pharmacy, let us know that the prescription was sent electronically.

\*Medications filled at Naval Medical San Diego Pharmacies do not have a copay.

Copay's may apply to prescription's transferred to Tricare's Home Delivery Mail Order service fulfilled through Express Scripts.

**Take this flyer to your provider to have your prescriptions sent to:**

### What is an electronic prescription?

An electronic prescription is a computer-generated prescription sent electronically from your health care provider directly to our pharmacy.

### How does it work?

Electronic prescriptions are sent using a private, secure, and closed network. Your prescription information is not sent over the Internet or as an e-mail.

### Why ask for an electronic prescription?

Your electronic prescription is sent immediately to our pharmacy with no need to drop off a paper prescription. Your doctor's electronic system may also be able to suggest generic and other medications, resulting in cost effectiveness. The electronic process also helps prevent medication errors.

### Will my prescription be ready when I arrive at the pharmacy?

The medication will not be filled until you arrive at the pharmacy of your choice. When you check in, tell the technician that your provider electronically prescribed your prescription. If the formulary medication is not in stock, we will make every effort to fill your medication within 3 business days.
